"Seeds of Wonder" a CD Release Concert

Rabbi Hanna Tiferet Siegel is a singer-songwriter and liturgical artist, who weaves together prayerful songs and thoughtful teachings in a tapestry of love and kindness. Hanna has been blessed with the gift of writing new melodies for ancient Hebrew prayers and her healing and uplifting music is sung around the world in synagogues, havurot, and spiritual gatherings. Her 7th album, "Seeds of Wonder," takes us on life's journey, touching the miracles as well as the losses that we experience along the way.

Hanna Tiferet was the first woman to receive the title of "Eshet Hazon," Woman of Vision. Her music and ministry give voice to the wisdom of the feminine and the call of Mother Earth. Ordained by Reb Zalman Schachter-Shalomi, she is a "hands on" rabbi, who learns from doing and shares what she lives. She earned her MAJS at Boston's Hebrew College and studied at Hebrew University in Jerusalem as a Melton Senior Educator. Hanna taught for many years at Elat Chayyim and the Conference on Judaism in Rural New England. She has travelled extensively throughout the US and Canada, leading workshops and concerts.

Since the late sixties, she and her husband, Rabbi Daniel Siegel, have been pioneers for the renewal of Judaism throughout the US and Canada. They founded Congregation Or Shalom in Vancouver, BC 1977-87, taught at the Upper Valley Jewish Community in Hanover, NH 1987-97, and served B'nai Or of Boston 1999-2006. They now live on an island in British Columbia.
